Allowable Subject Matter

1. Claims 1-18 are allowed.

The following is an examiner's statement of reasons for allowance:

Prior art does not teach that, a) a current splitting inductor, for generating, from the high frequency current source, a first and a second high-frequency AC current sources; b) a rectifier, coupled to the splitting inductor, consisting of rectifying diodes for rectifying said first and second high-frequency current sources, and capacitors, charged by said diodes, said capacitors being corresponding to a first and second DC current sources; c) a controllable half-bridge commutator having a first and a second control inputs, the commutator being coupled to said DC current sources, for commutating the DC current sources, for allowing to generate, from said DC current sources, the low frequency AC current required for driving said electric load in combination with all limitation recited in independent claim 1.

The remaining dependent claims 2-18 are allowable for at least above reason.

Prior art made of record and not relied upon is considered pertinent to applicant's disclosure. None of record prior arts stands alone or combination with the others discloses all limitations required in claim invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
